Looks great
A 9 month design project to discuss and decide…

- How we can improve the impact of our collective work with or as experts by experience/patients leaders
- What a community of patients/users/partners/improvers would look like and do

<tr>
<td>What work around coproduction and experience based co design is already going on?</td>
<td>What do our 160 member charities do with patient activists/ partners? What impact does this have?</td>
<td>What works for you? What doesn’t? What would help you to have more impact?</td>
</tr>
<tr>
<td>What would add value?</td>

Next Steps:

- Recruitment of a Project Manager
- Set up of a project group
- Work with Q members, NV charities and independent patient leaders to establish baseline and understand opportunities
- Engage with all stakeholders throughout to work up a proposal for a multi year partnership
