

Are you ready for Q?

Q is a community of thousands of people across the UK and Ireland, collaborating to improve the safety and quality of health and care. Check our decision tree below to decide if Q is the right community for you.

🗕 YES 🔷

I am interested in collaborating to improve the quality of health and care.

- YES →

I have built an understanding of some structured approaches to improvement, such as:

- · Improvement methodology.
- · Co-design.
- · Systems Thinking.

This may be from personal or professional experience, formal development or study.

Q may not be for you right now.

Q members want to collaborate with our community to make real-world change by seeking support on their improvement challenges and helping others solve theirs.

Q may not be for you right

now, but we would love to hear from you when you've gained more experience. Aim to build an understanding of:

- Approaches to improvement, such as those mentioned above.
- Barriers to improvement and how they can be overcome.

I have played an important role in improvement efforts that go beyond my team, such as:

- Formally leading improvement work.
- Providing a patient or public perspective.
- Contributing to the design of improvement work.
- Supporting analysis or evaluation of improvement work.

Q may not be for you right now,

but we would love to hear from you when you've gained more experience.

Aim to build evidence of:

- Playing an important role in improvement efforts across more than one team.
- Providing a contribution that has resulted in significant impact on the process or outcome of improvement work.

Q could be a good fit for you.
